

Snow man instructions

Jaret 13B

1 go and fill the screen black

2 go to stapes and make a circle that is white and 2 and a half inches from its fat point then make a circle that is white and is 1 and a half inch from its fat point then make another circle that is 1 inch from its fat point.

3 make a star that is the color ffff33 and is one half inch then put it in the in the strait in the middle of the screen and is 7 and $\frac{1}{2}$ inches high. Then make a circle that is the color ffff99 and is 1 and a half of an inch and put it up in the right had corner so that 1 inch is showing from the bottom of the circle

4 now those three circles stack them in order form greatest to least and put them right under the star.

5 get the color 990000 and in the middle circle put two arms one on the left and one on the right the arms should be $\frac{1}{4}$ inch thick and $1\frac{1}{2}$ inch long. Then go to stamps and make sure you haven't changed colors and then make two hands that are $\frac{3}{4}$ of an inch and two eyes so that are $\frac{1}{2}$ inch and two ears that are 1 inch put the hands on the end of the arms put the eyes one cm from the top of the head and make a line that is $\frac{1}{4}$ inch thick and $\frac{1}{2}$ inch long and put it in the middle. Put the line so that from the middle of the ears it is $\frac{1}{4}$ inch from the bottom of the top circle

6 now let's make some hair make a line that is the color 990000 and $\frac{1}{4}$ inch thick, curve it just over the top of the top of the smallest circle so that it slops just at the tips of both ears
